

Safety on board

YOUR BELONGINGS

Please be aware, that any items left onboard are left at your own risk.

Your wallet, phone, passport, other travel documentation and identification are best kept on you, and not left behind on the coach. Your Travel Team (Travel Director and Driver) will be happy to provide tips on best practice.

And please, take particular care of your personal belongings and valuables in public areas, including hotel breakfast rooms, lobbies and *especially* when you're out exploring.

YOUR LUGGAGE

It's important to store your hand luggage safely and securely.

Your overhead compartments are the perfect spot to securely store larger items.

Small, heavy or fragile items should fit perfectly under the seat in front of you.

Your Driver will pack large items, like your suitcase, in the hold compartment below.

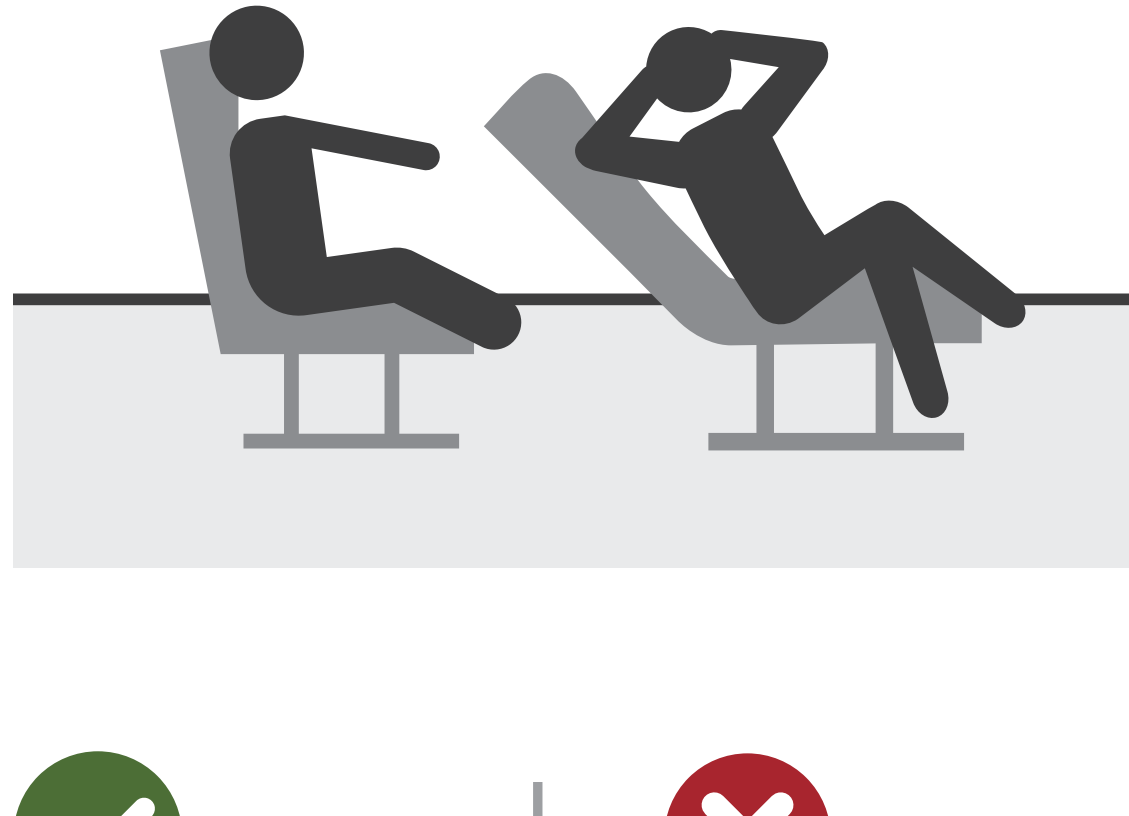

The aisles of the coach must be kept clear at all times.

YOUR SEAT

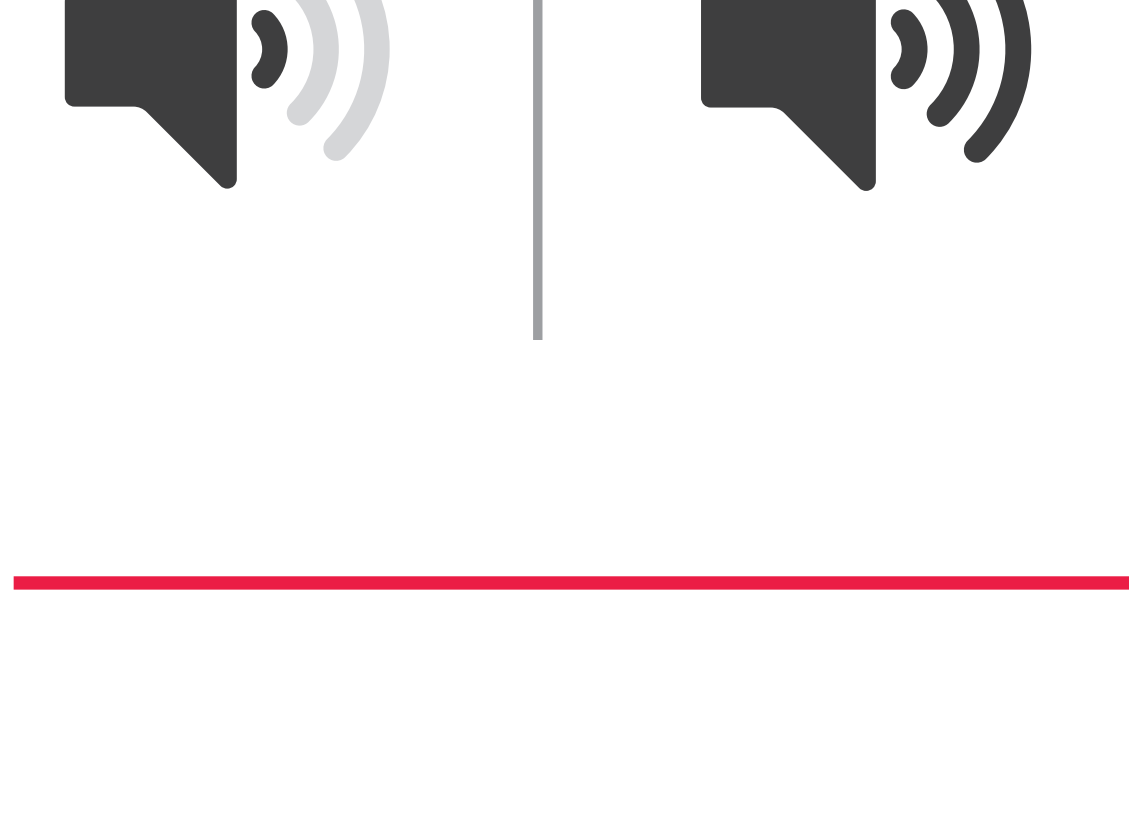

Please keep your seatbelt fastened when the vehicle is in motion, as this is a legal requirement. On arrival at your destination, please wait until the coach has safely parked before getting up from your seat. Please also refrain from speaking to the Driver while driving.

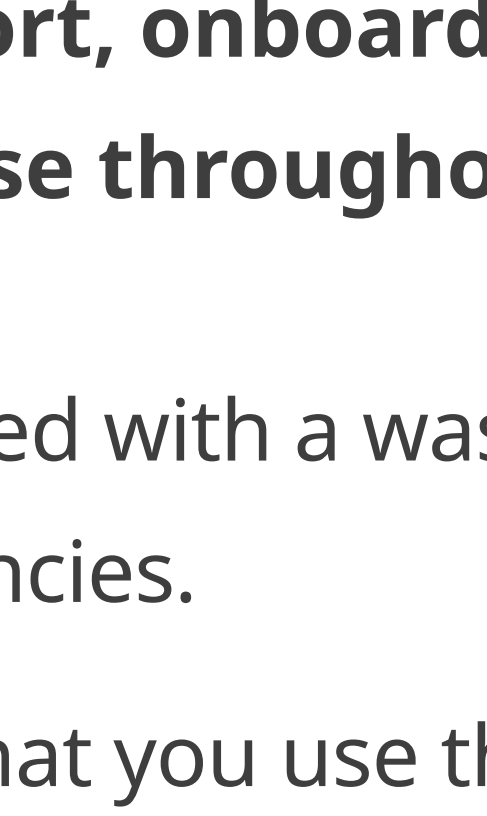

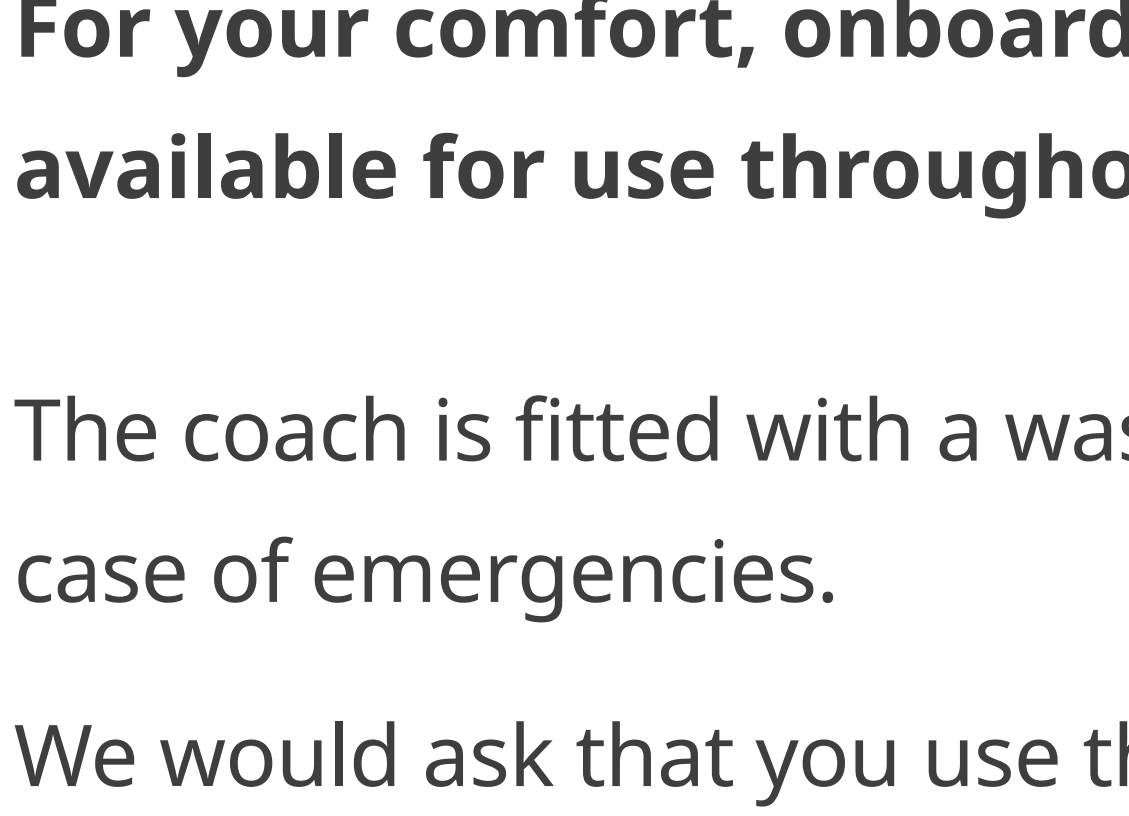

Please keep your seatbelt fastened when you're seated, and when the coach is moving.

Please hold onto the seats or overhead compartment for steadiness, if you need to get up from your seat at any time.

Please keep your fellow travelers in mind if you recline your seat when taking a nap.

Please do not disturb your fellow travellers on the coach. Please utilise earphones when listening to music or using your device with sound.

ONBOARD FACILITIES

For your comfort, onboard facilities are available for use throughout your journey.

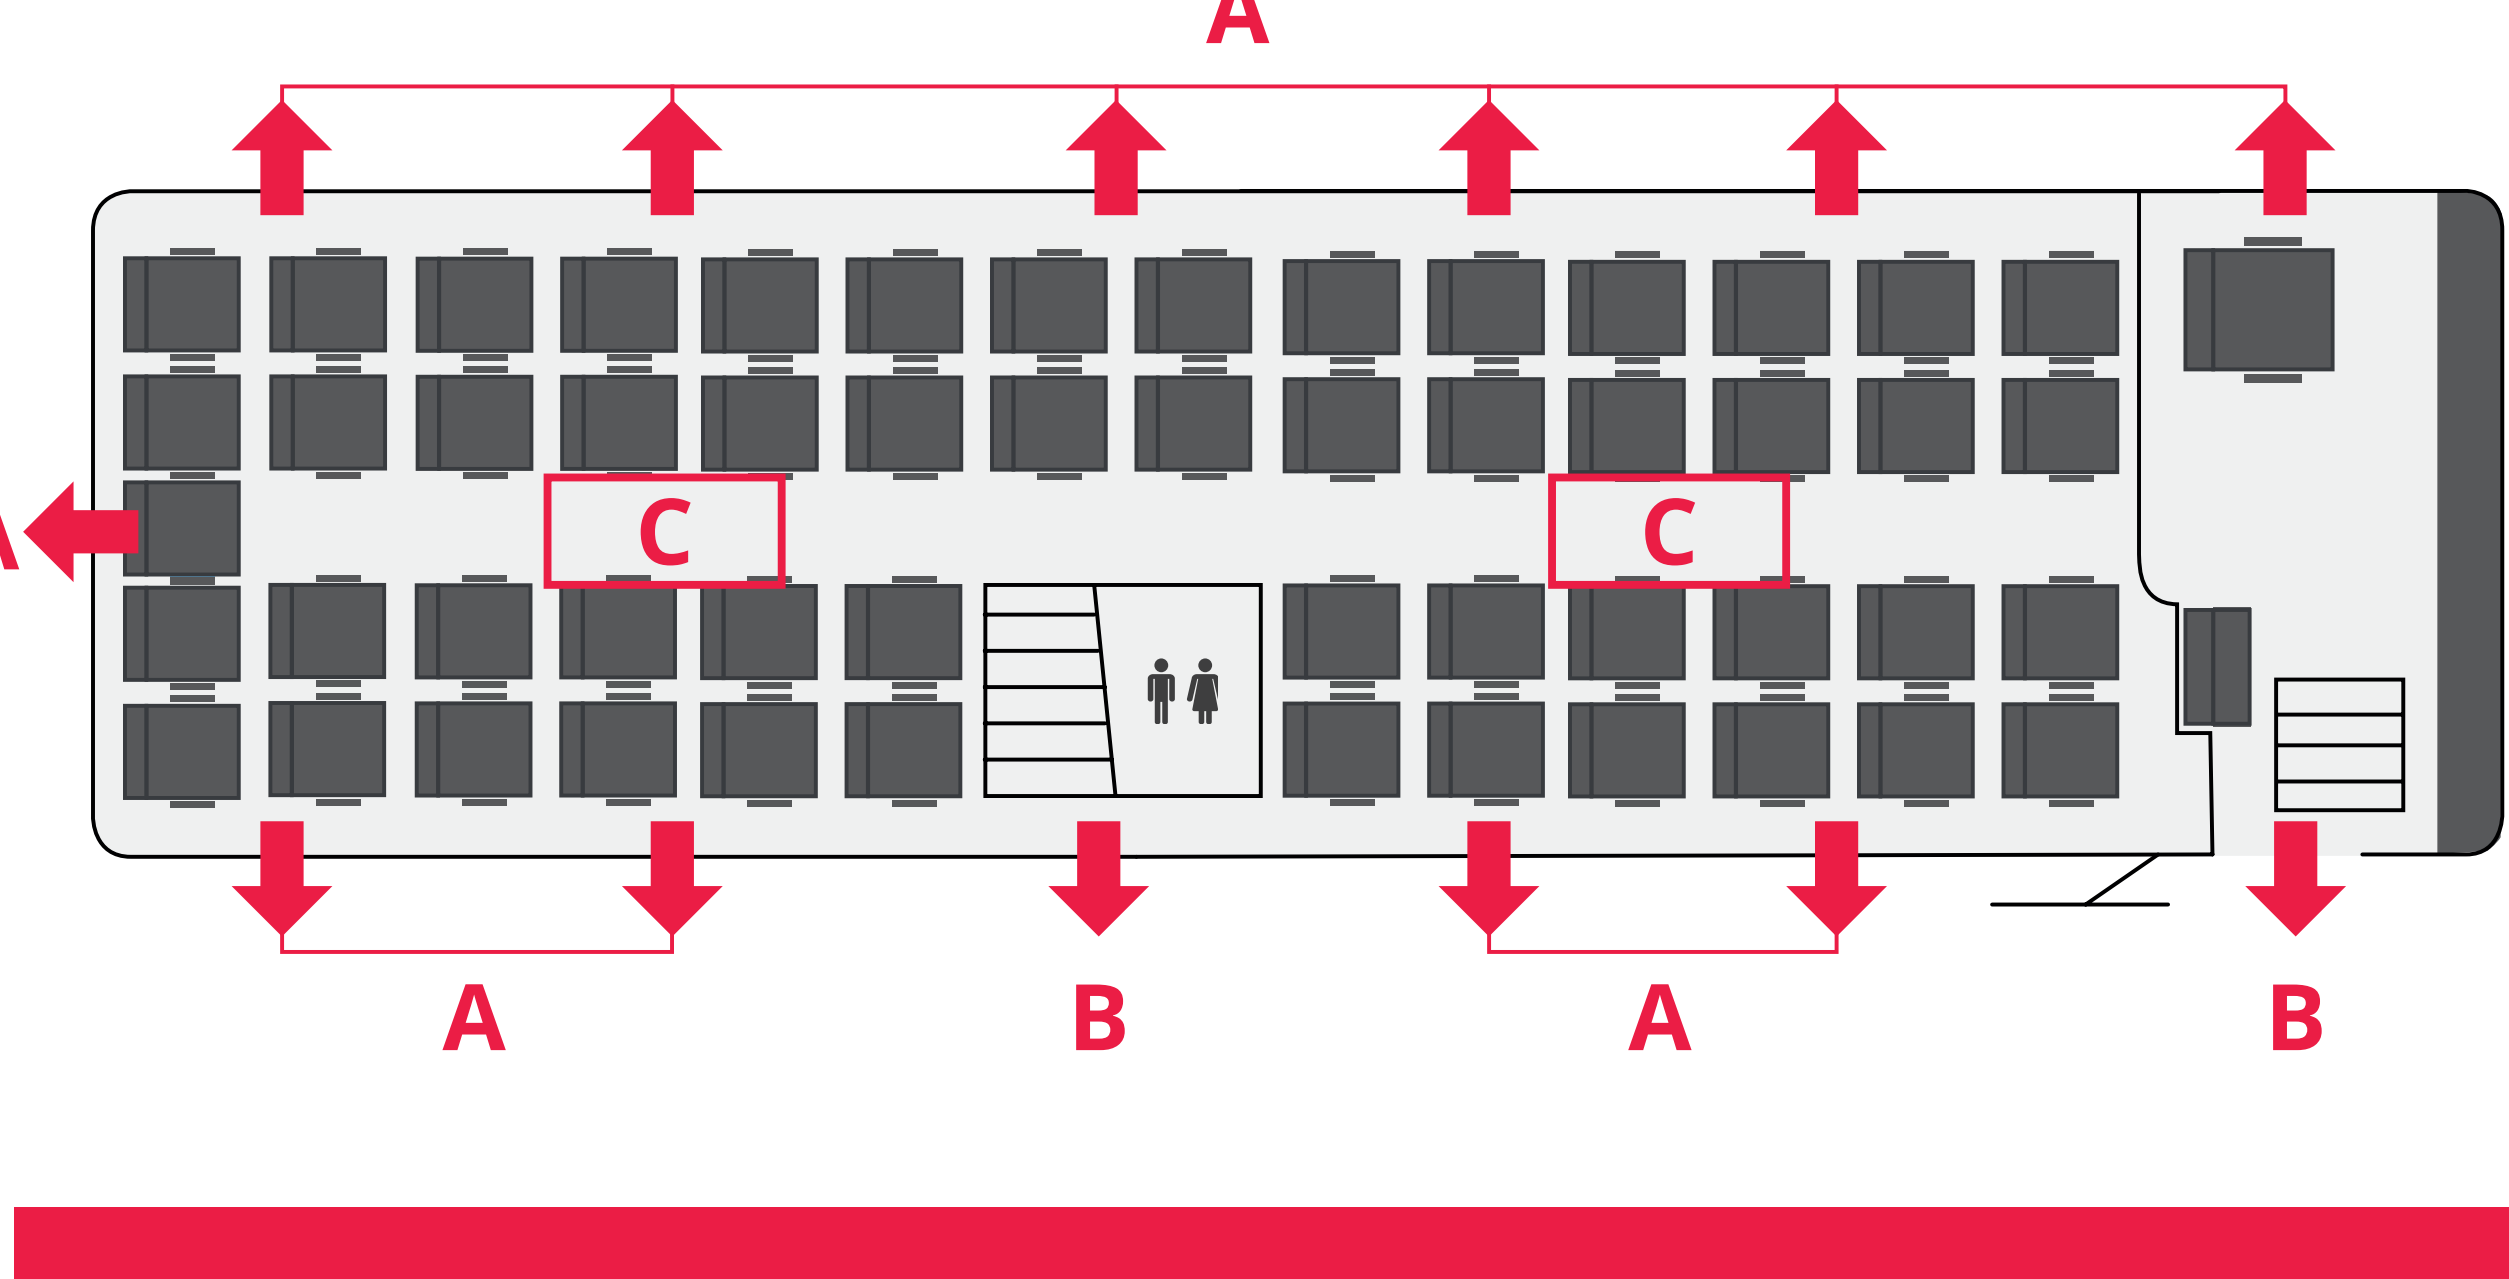

The coach is fitted with a washroom for your convenience in case of emergencies.

We would ask that you use this facility only when absolutely necessary, so as to avoid walking around on the coach.

We will be making regular stops to allow the use of public conveniences. In our experience we have found that our guests prefer to use facilities and public rest stops off the coach.

EMERGENCY EXITS

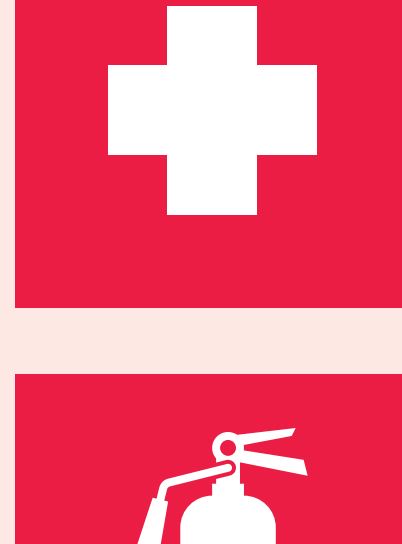

In the unlikely case of an emergency, coach exits are clearly marked.

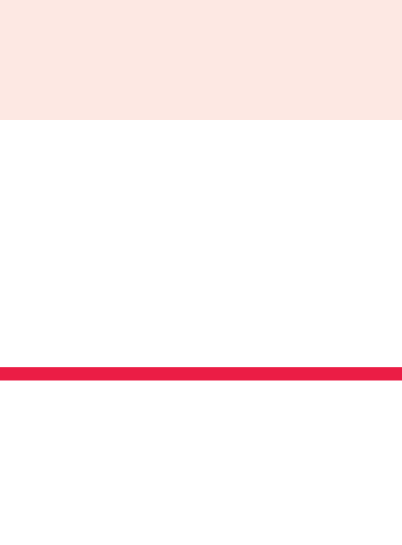

A. Windows B. Doors C. Roof Hatches

EMERGENCY EQUIPMENT

Your Team will point out the location of emergency equipment on board.

Hammers to break the windows if the doors are not usable.

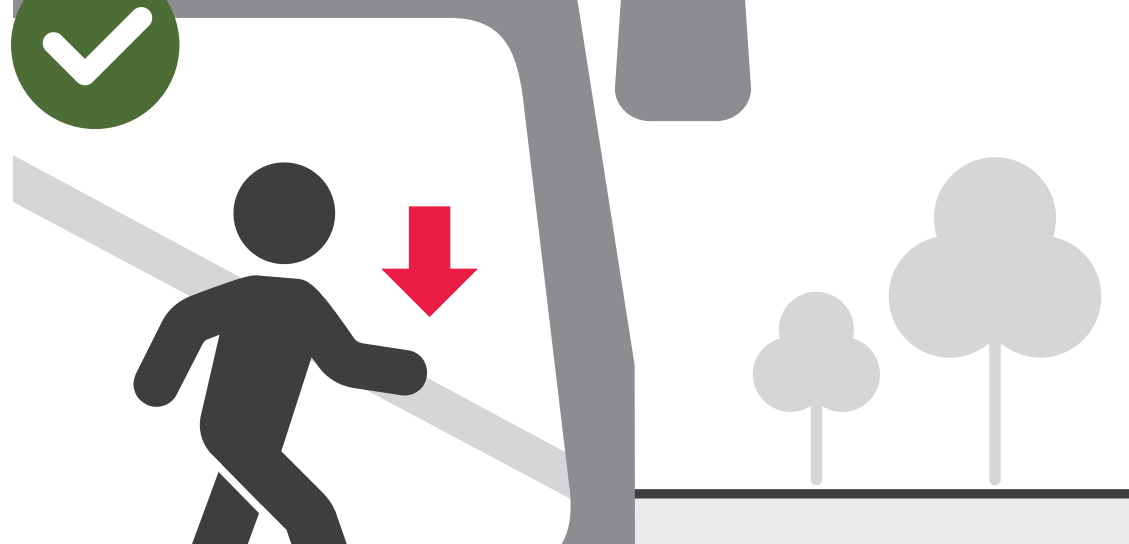

A first aid kit.

A fire extinguisher.

EXITING THE COACH

It's important that you're cautious when stepping on and off the coach.

Before stepping off the coach, please be sure to check the direction of the traffic in both directions.

Please take care when stepping down, as the depth to the ground may vary.

Please always use the handrail.

ACCOMMODATION

Once checked in, please familiarise yourself with your surroundings.

Locate the emergency exits. Note these exit routes along with any fire safety advice and designated assembly points.

Most rooms have a safe, please use this for all your valuables during your stay.

Make sure all windows and doors are locked when you leave. Remember to keep your room key with you.
